at yesterday's session of the Stock Ex-change. After having sold in a few small and infrequent transactions in the neighborhood of 160, the stock yesterday jumped 15 points in the course of three sales. The first sale was at 112, at which twenty-eight shares were sold. The fol-lowing fifty shares went at a further advance of 3 points—115. Quotations furnished by W. B. SALE OF SHARES BY HOURS.

No real striking reason for the sud-den advance has been put into general circulation. It is not thought probable any deep significance could attach to any deep significance could attach to such a small aggregate of sales. The most likely reason advanced yesterday was that the buyers of the fifty shares were anxious to fill up on that stock only to that extent. However, the sub-sequent leap of almost 100 points in the saked price-from 102 to 200-leads many to the conclusion that there is some-thing more than appears on the surface behind the movement. There was little buying in other or-ders. The session was quiet. Railway, preferred and common, held firmly at the same levels as on Tuesday. Mergen-thaler, which has been advancing in leaps

of 1 and 2 points, registered another ad vance to 234, and twenty shares of Lan ston sold at 96. Plant in New Quarters.
